XV UNL School, 21-25 July 2014, Geneva

Exercise #9 – Syntactic Module

- Goal: To generate the parsing module for the training corpus
- Deliverable:
  - *syntax_ana_<ID>.txt*
- Activity:
  1. Extract the grammar from the tree bank.
  2. Test it in the UTK (UNLWEB>Unldev>UTK>SENTENCES) using the following resources
     SENTENCES: corpus_seg_<ID>.txt
     DICTONARY: dic_<ID>.txt and default_dic.txt
     D-GRAMMAR: dgrammar_<ID>.txt
     T-GRAMMAR: morphology_ana_<ID>.txt and syntax_ana_<ID>.txt
     PROCESS: PARSE (type=tree, attribute=LEX, format=VALUE ONLY)
  3. Do the necessary changes until the results are OK.
