The UNDL Foundation has released the first edition of the Certificate of Proficiency in UNL (CUP⁵⁰⁰). The certification is open and free, and can be pursued on-line at [VALERIE](#), the VirtuAI LEaRnIng Environment for UNL. CUP is a series of certificates issued by the UNDL Foundation to prepare linguists and language specialists to represent natural language phenomena in the Universal Networking Language (UNL). They are required to create UNL resources, such as dictionaries and corpora, within the UNL ^{arium}

framework.

What is CUP?

CUP (Certificate of Proficiency in UNL) is a series of certificates issued by the UNDL Foundation to prepare linguists and language specialists to represent natural language phenomena in the Universal Networking Language (UNL). They are required to create UNL resources, such as dictionaries and corpora, within the UNL ^{arium} framework. The first edition of CUP (CUP⁵⁰⁰) is divided in 40 levels and 500 exercises, which are evaluated automatically by the system. The certificate is not time-constrained, and may be stopped and resumed at any time.

What is UNL?

The UNL is an artificial language that has been used for several different tasks in natural language processing, such as machine translation, multilingual document generation, summarization, information retrieval and semantic reasoning. It was originally proposed by the Institute of Advanced Studies of the United Nations University, in Tokyo, and has been currently promoted by the UNDL Foundation, in Geneva, Switzerland, under a mandate of the United Nations.
