The UNDL Foundation has published the first results of the III UNL Olympiad. We had 11 winners ranked according to the F-Measure and the submission date.

Goals

The III UNL Olympiad had two main goals:

- To prepare the dictionaries and grammars for UNLizing, with IAN, the corpus UGO-A1; and/or
- To prepare the dictionaries and grammars for NLizing, with EUGENE, the corpus UGO-A1.

UNLization is the process of representing, into UNL, the information conveyed by a natural language document. NLization, conversely, is the process of representing, in natural language, the information conveyed by a UNL document. These are done, respectively, with IAN and EUGENE, which are engines available at the UNLdev.

Modalities

The competition was organised in two modalities:

- Best UNLization Grammar for <LANGUAGE>
- Best NLization Grammar for <LANGUAGE>

Where <LANGUAGE> is one of the languages participating in this Olympiad (see the complete list below).

Prizes

Prizes are awarded to the best grammars of each modality (UNLization and NLization) for each language:

- 1st place: Gold Medal

- 2nd place: Silver Medal
- 3rd place: Bronze Medal

Additionally, the 10 best UNLization grammars among all languages and the 10 best NLization grammars among all languages will be awarded USD500.00 each.

Corpus

The official corpus is available for download at UNLWEB>UNLARIUM>CORPUS>UGO-A1>EXPORT.
